

ELNE

SECURE CONNECTIONS

NEW

WIRING BRIDGES

New in the range:

Flexible wiring bridges with ferrules or fork connections

Or very innovative:

With ultrasonically welded cable ends

Advantage:

- > Very small design
- > High strength due to molecular bonding
- > No extra parts that could come off or corrode
- > Better conductivity through optimized seamless connection

Enclosed is our basic range, other cross-sections and lengths are possible on request
